## ADA SCONCE 17

Solid sheet metal construction with modern LED technology makes this sconce both classic and contemporary. We mount adjustable reflectors on friction hinges to allow you to direct the wall-washing light of these sconces in an endless variety of angles. The Ada Sconce gets its name and its raison d'être from the Americans with Disabilities Act (ADA), which dictates that sconces in hallways must not protrude from the wall more than 4". The Ada Sconce was also greatly inspired by Charlotte Perriand's CP-1, in our opinion one of the best sconces ever made.

**DIMENSIONS**  
5.75" x 3.5" x 17"

**COLOR TEMPERATURE**  
2700K  
90+ CRI  
3500K Upon Request
